“ Dad was reunited with his daughter, Sara and her husband Steve and their daughter Bailey. A beautiful miracle after 38 years of no contact. So grateful!

“ Eric had a one man sprinkler outfit in Greenville SC around 1972-73 . He needed a helper to do the install work - I was broke in my last year at Clemson - so I worked with Eric on weekends - had a blast , made good money and enjoyed the heck out of Eric . I'd recently wondered how/where he was . Damn ,right here in Charlotte . My career path was somewhat a result of that encounter . I hope Eric wasn't in pain .

“ Eric and I became friends at Midwood School and used to play together with some of the other neighborhood kids around their house on Dearmon Dr. We remained friends on into high school at Garinger. I lost track of him and thought that he had moved to California. Don't know where I got that idea or if it was true. I was so sorry to hear of his passing. My thoughts and prayers go out to all the family.
